Signature:	Relationship to child:	
Comments:		

Lumley Infant and Nursery School – Consent Information

Attendance Agreement / Contract

At Lumley Infant & Nursery School, we have high expectations for the attendance of the young people on roll. This is because we recognise that all absence is potentially detrimental to a child's education.

Missing school can damage children's achievements, disrupt the school's routines and affect other children's learning. Above all, missing out on the opportunities provided in school can have a long-term effect on children's chances in life.

In order for young people to gain maximum benefit from their time at school, and to maximise future life opportunities, it is imperative that they attend every day.

The School asks parents to support these high expectations by:

- Ensuring their child attends school every day.
- Contacting school on the first day of absence to notify us of the reasons for absences, and the expected date of return.
- Where medical absences persist beyond day 1 of illness, please keep in regular contact with the school.
- Where required, providing medical evidence to corroborate absences (sight of G.P. appointment card, medication with child's name on it, hospital appointment letter).
- If possible, any medical / dental appointment should be made out of school time. If this is not possible, your child should miss the minimum amount of school time necessary. If your child is well enough to return to school following the appointment then they should do so.
- Being aware that Head Teachers by law may not grant leave of absence requests unless the reasons for your request are **exceptional**. Application forms for leave of absence are available from the school and should be completed **well in advance** of any proposed leave of absence.

Photo and Video Consent

Lumley Infant and Nursery School recognises its responsibility to ensure the welfare and safety of children and young people, and to comply with the General Data Protection Regulations 2018. You may wish to refer to our privacy notice on our website, which explains how we use your data, and your rights and responsibilities.

We use photographs and videos for a number of reasons including celebrating and recording children's successes. These images or videos may be used on display boards and screens around school. Your child's identity will not be disclosed without your consent and only if the photograph is used to celebrate individual success.

Photographs and videos will only be recorded on school owned equipment and will not be kept for longer than is to be considered necessary and, in any event, not exceeding a maximum of three years after your child has left the school.

We also believe that it is important for families to celebrate children's successes and, for that reason, at some events we may* allow parents/carers to take photographs and videos. We will remind parents/carers prior to the event that any photographs or videos taken should not be uploaded to social media and will explain that some children's safety could be affected.

(* Please see conditions included in the Photo Consent form)

If you are concerned about the privacy of your child, we would like to encourage you to make an appointment and discuss your concern with the Headteacher so we can take appropriate measures to protect them.

On some occasions, if we do not have permission to use the image of your child, it may result in your child not being able to take full part in some school events.

Consent agreement for school/setting to administer medication /treatment

School-held medicines

We retain school-held non-prescription medicines for the relief of pain or insect bites. School-held non-prescription medicines may be administered for immediate relief and will not usually be administered for more than a day. All parents will be informed by the most appropriate communication method at the end of the day. On observing any adverse side effects these will be reported to parents in a timely manner.

By consenting and signing, parents state that these medicines or treatments have been given previously with no ill effects. School will also need to ascertain in person or by telephone when the last dose was administered at home before administering in order to avoid over-dosage.

Anaphylaxis

In the UK, 17% of fatal allergic reactions in school-aged children happen while at school. From 1 October 2017 the Human Medicines (Amendment) Regulations 2017 allowed all schools to buy adrenaline auto-injector (AAI) devices without a prescription, for emergency use in children who are at risk of anaphylaxis but their own device is not available or not working (e.g. because it is broken, or out-of-date). The school's spare AAI should only be used on pupils known to be at risk of anaphylaxis, for whom both medical authorisation and written parental consent for use of the spare AAI has been provided. The school's spare AAI can be administered to a pupil whose own prescribed AAI cannot be administered correctly without delay.

If your child is in one of the groups below consider signing the consent form.

1. children who have been prescribed their own AAI
2. also those at risk of anaphylaxis who have been provided with a medical plan confirming this, but who have not been prescribed AAI.

In the event of a possible severe allergic reaction in a pupil who does not meet these criteria, emergency services (999) will be contacted and advice sought from them as to whether administration of the spare emergency AAI is appropriate.

Emergency Salbutamol Inhaler

The emergency salbutamol inhaler should only be used for children:

1. who have been diagnosed with asthma, and prescribed a reliever inhaler
2. OR who have been prescribed a reliever inhaler;

A child may be prescribed an inhaler for their asthma which contains an alternative reliever medication to salbutamol (such as terbutaline). The salbutamol inhaler should still be used by these children if their own inhaler is not accessible – it will still help to relieve their asthma and could save their life

Half Day Visit Consent

General consent

I agree to my son/daughter participating in educational visits and other off-site activities including – Sports Festivals, Village Surveys, Local Church visits, etc.

Separate consent forms will still be sent for any full day visits and/or to gain up to date contact information

This consent will be gained annually or until withdrawn in writing.

Medical information about your child

I agree to my son/daughter receiving medication as instructed and any emergency dental, medical or surgical treatment, including anaesthetic or blood transfusion, as considered necessary by the medical authorities present.

I will inform the school of any change in medication that is relevant to educational visits and off-site activities.

Please list in the comments section of the Consent Form any medical conditions or prescribed medication you want us to be aware of. Include details of any medication your child will need to take on visits / off-site activities.

By signing the Consent Form, I hereby undertake to indemnify Durham County Council and the staff accompanying the group against any costs and expenses reasonably incurred by them on behalf of my child during the visit (for example, the cost of replacement food or clothing not supplied for a trip/visit). This indemnity will not extend to any claims, damages, costs or expenses against the risk of which Durham County Council or member of staff are entitled to be indemnified under any policy of insurance.

Food Consent

During the course of planned activities to be carried out in school your child may need to taste certain items of food, e.g. in 'Understanding of the World' a child may be asked to taste salty or sweet tasting foodstuff.

Please let us know if your child has any special dietary requirements which may prevent him/her taking part.
